Reply-To: Heather Hamza <heather.hamza@hollywoodsign.org>

To: Sarah Dusseault <sarah.dusseault@lacity.org>, Catherine Landers <catherine.landern@lacity.org>, Aram Sahakian <aram.sahakian@lacity.org>

Good evening,
Sarah thank you for taking the time to call.

Although Google did change the address in Google Maps, they are still sending countless people to our neighborhood via Google searches.

The blue directional signs must be removed, then Google re-contacted. If you look at our correspondence, they are referring people here BECAUSE of the blue signs. I have included it here.

Aram-
I suggested two turn-around points for non-residential traffic. As we all know, there are yellow signs posted everywhere in the neighborhood that read "NO ACCESS TO HOLLYWOOD SIGN." Therefore it is fully legitimate to turn around parties whose sole purpose is to come up here and view the sign.

The two turn-around points would be at the two main (and only) arteries that feed our neighborhood:

1. Beachwood Market Intersection
2. The intersection at Lake Hollywood Drive, just at the entrance to "Lake Hollywood Estates."

Both areas have ample room for cars to turn around.

Thank you,
Heather

Subject: RE: [4-6573000008080] Google still a direct threat to the safety and welfare of our neighborhood under the Hollywood sign, part 1

Dear Google,
Seeing as your response was completely unsatisfactory, I am now going to send you two emails with ample documentation to support our position that Google must immediately remove any and all references to the illegal vista on Canyon Lake Drive, when the public is searching for the Hollywood sign.

Hollywoodsign.org, the official website of the Hollywood Sign Trust:

[Seeing The Sign | The Hollywood Sign](#)

Seeing The Sign | The Hollywood Sign

Hike to the Sign Take the Shuttle Best
Viewpoints Looking for a picture-perfect
view of the Sign?

[View on hollywoodsign.org](#)

[Preview by Yahoo](#)

Several months ago I spoke with the webmaster Betsy, and she was appalled that people were being sent to the vista and the surrounding residential area. There is NO REFERENCE to the illegal vista on Canyon Lake Drive here.

Another item- when you go to the HOLLYWOOD CHAMBER OF COMMERCE website, it REFERS you to the Hollywoodsign.org site:

<http://www.hollywoodchamber.net/index.php?module=directory&search=tourist+attraction&Submit=Find+Business>

There is a VERY LONG LIST of extremely concerning and fully legitimate issues. Your little random "street shots" from your webcam do NOT AT ALL accurately depict the disaster that you, Google, are directly contributing to. It is abundantly clear that your staff does not know this area.

PROBLEMS:

- * Substandard, winding streets in the middle of a severe high fire hazard zone (per the LAFD) & residential area. Too many cars and smokers = a disaster waiting to happen (a firetruck would never get up here in time, because of all the cars that YOU, Google, are directing here)
- * Cars constantly stopping IN THE MIDDLE OF THE STREET, effectively blocking ALL TRAFFIC
- * Cars constantly stopping and parking AT RED CURBS
- * Two fires in the vista already
- * Pedestrian struck by a car
- * A dog run over and killed by a car
- * Car that drove off the cliff and landed on the children's play area below
- * Cars constantly parked in the wrong direction

Your snapshot "street view" in NO WAY does justice to this volatile situation that YOU, Google, are contributing to.

Those "blue signs" that you refer to were installed ILLEGALLY by the previous administration. In fact the entire "vista" was developed ILLEGALLY. There are NO DOCUMENTS to support: due process, CEQA review, parking studies, traffic studies, environmental impact reports.

Kindly see attached photos, which are OUR "street views". These are the views that WE SEE EVERY DAY.

You are setting yourselves up for huge liability, this is a powder keg.

THE 'VISTA' ON CANYON LAKE DRIVE IS NOT A SANCTIONED NOR LEGAL VIEWING SITE FOR THE SIGN. IT IS A TINY NEIGHBORHOOD DOG PARK.

Once again, we are begging you to PLEASE remove this illegal and dangerous parcel from your search engine! You had the sense to change the official address for the Hollywood Sign, so why not this? By honoring this legitimate and simple request, it would prevent the hordes of confused drivers coming here from (literally) all over the world. Many of them do not read nor speak English, so they cannot read the signs and they park illegally and they SMOKE.

Your refusing to abide by a very simple request is literally putting ALL OF OUR LIVES AT RISK.

The "locals" and neighborhood visitors do not need Google to find this little dog park, so they will keep coming and we WELCOME THEM!

Please remove "CANYON LAKE DRIVE" from any and all Google searches related to the HOLLYWOOD SIGN. You should review this and subsequent emails with your legal team, as you are on notice now. Ignoring this simple request shows depraved indifference. You, Google, are sending countless cars to an area that CANNOT HANDLE IT. I am providing you with AMPLE DOCUMENTATION of these FACTS and failure to act constitutes CRIMINAL NEGLIGENCE.

Kind regards,
Heather Hamza

Hello Heather,

Thanks for reaching out to us.

We have reviewed your request for amendment of the "Hollywood Sign Overlook" listing. Not only are there "Scenic View" signs all along Mulholland Highway pointing to this overlook, but Street View imagery shows the area to be well-kept for visitors. While we understand your concerns, the Hollywood sign is a well-known scenic point in Los Angeles, and we have therefore left the feature on Maps.

If you have additional official information that can enable us to further evaluate this issue, please feel free to reach out.

Thanks for your consideration.

Regards,
The Google Team

Good morning Sarah,
I have had a lot of correspondence with Google.

They will not respond to, "If we do this, then will you promise to do that."

The blue signs need to be removed, regardless. Canyon Lake Drive is NOT a sanctioned viewing site for the sign. One thing we can all agree on is that it is unsafe and we absolutely cannot handle the volumes of motor vehicles and hordes of pedestrians that we see, which is only exacerbated on & around major holidays; weekends; all summer; college breaks. Once the signs are removed, then we have a leg to stand on with Google. As long as the signs are up, we do not.

Thanks,
Heather
